

YOGITA DOKH

Aspiring Data Analyst

Pune, India | +91-8459341135 | dokhyogita20@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

B.Tech graduate in Computer Science (Data Science) with strong skills in Data Analysis, SQL, Python, Excel, Statistics, and Data Visualization. Experienced in data cleaning, exploratory data analysis, dashboard development, and reporting through academic and internship projects. Passionate about transforming data into actionable insights and supporting data-driven business decisions with strong analytical and problem-solving abilities.

SKILLS

Programming: Python, SQL

Data Analysis: Data Cleaning, Data Validation, EDA, Statistical Analysis, KPI Analysis

Visualization: Power BI, Tableau, Microsoft Excel, Dashboard Development

Excel Skills: Pivot Tables, VLOOKUP/XLOOKUP, Charts, Conditional Formatting

Libraries: Pandas, NumPy, Scikit-learn, SMOTH

Databases & Tools: MySQL, Git, GitHub, Jupyter Notebook, VS Code, Render, AWS

INTERNSHIP EXPERIENCE

Data Analyst Intern | Elevate Labs Pvt. Ltd.

Jan 2026 – Apr 2026

- Cleaned, validated, and analyzed 10,000+ data records using Python, Pandas, and Excel, improving data accuracy by 25% and ensuring reliable reporting.
- Performed Exploratory Data Analysis (EDA) on 5+ datasets, uncovering key trends and insights that contributed to 20% faster data-driven decision-makings.
- Developed 8+ interactive dashboards and visual reports using Power BI, Matplotlib, and Seaborn, reducing report generation time by 30% and enhancing stakeholder visibility into business performance

PROJECTS

E-Commerce Sales Analytics Dashboard | Python, Power BI

- Analyzed 50,000+ sales transactions to uncover trends in revenue, customer behavior, and product performance. Handled class imbalance using SMOTE and tuned hyperparameters via GridSearchCV to improve recall on default cases by 12%.
- Developed an interactive Power BI dashboard featuring 10+ KPIs and visualizations to track sales, profit, and regional performance.
- Generated actionable insights that helped identify top-performing products and sales opportunities, supporting data-driven business decisions.

Employee Attrition Dashboard | Power BI Desktop, DAX, Python

- Developed a machine learning model using Python and Scikit-learn to predict employee attrition with 85%+ accuracy.
- Analyzed and cleaned 1,400+ employee records, identifying key factors influencing turnover through exploratory data analysis.
- Built 5+ interactive visualizations and dashboards to uncover attrition trends and support data-driven HR decisions.

EDUCATION

B.Tech. in CSE (Data Science) | Shreeyash College of Engineering and Technology, Chh. Sambhajinagar
CGPA: 8.45/10

2022 – 2026

Higher Secondary Certificate | Swami Bramhanand Vidyalay, Chh. Sambhajinagar, Pimpri Raja
Percentage: 82.15/100

2021 – 2022

CERTIFICATIONS

- Gen AI Mastermind – Outskill
